English & French website per estimate of December 17, 2020:

I see that your site will have 6 pages, in English and French. The 6 pages are:

1. Home
2. Products Overview
3. Product Downloads
4. Contact Us
5. List of Diesel Engine Parts
6. Markets

Some questions:

- What will be on the products overview page? How many sections?
- Will the List of Diesel Engine Parts be simply a page listing parts? Will there be downloads or images?
- Will Markets be just a list as well?
- Will you provide the translation to French, or do you want me to get you an estimate?

Assuming the only page that needs much "design" is the home page, then you'd be looking at about \$1,950 for the English site and then \$975 for the French.

If the questions above yield any changes to this, then I will let you know right away. I could have

the first version of the site up for you by December 25th.

I know you already have your domain, so web hosting will be pretty simple - about \$230 per year which would include a security (SSL) certificate.
